PRESS RELEASE

In cooperation with the Kommunale Galerie Berlin, the Goldrausch Künstlerinnenprojekt will show current works by 15 women artists from September 10 to October 30, 2022. With *Tender Hooks - Goldrausch 2022*, the professionalization program presents the final exhibition of its 32nd year. The group exhibition is curated by Julia Heunemann and Hannah Kruse.

15 artists, 15 positions: The fellows of the **Goldrausch Künstlerinnenprojekt** provide insights into their working practice in *Tender Hooks*. Their exploratory, conceptual approaches find expression in experimental photography, film, 3D animation, painting, drawing, installation, and sculpture. The works question artistic genres and the relationships between humans, nature and technology. They address the construction of realities and visual worlds, of affiliations and identities, cultures of memory and historiography.

The **Goldrausch Künstlerinnenprojekt** is a one-year professionalization course that promotes outstanding artistic positions by women. Since 1989, this renowned professional development project, which is unique in Germany, has supported women artists in developing individual career paths and presenting their work to the public.
